- Latest silicon providing advanced performance & features
- Pause, record & rewind live TV with integrated hard disk drive of up to 2TB
- High Speed Ethernet interface supports hybrid, OTT & IP
- Home networking & TV Anywhere ready
- Ultra-low power operation for European energy efficiency requirements

Product Configurations & options:

4/8 tuners, EuroDOCSIS™ based modem, CI+ & SlingLoaded®

TV Anywhere: Multi Screen & Whole Home DVR

Multi device, multi screen viewing inside or outside the home is fully supported through our award winning TV Anywhere software solutions. TV Anywhere ensures that operators can embrace opportunities to increase ARPU and reduce churn by enabling content to be delivered securely to devices inside or outside the home.

By using the leading home networking and multi screen software standards and protocols, we can extend your services securely to a variety of devices, ensuring that your content is no longer constrained to the main TV in the home. Ask about our SlingLoaded® technology, developed to provide your customers with the ultimate in convenience, enabling them to watch their content on their favourite mobile devices.
