

## Product Portfolio Broadband IP & Hybrid

### HDX-200

A compact, powerful and cost effective set-top box designed to enable consumers to access IP based content. The HDX-200 enables the delivery of a wide range of content, apps and services directly to the TV, over the Internet, through IPTV or home networks.

#### Highlights

- Supports MPEG-2, MPEG-4/H.264 AVC, WM-9/VC-1 AVC VP6, AAC, MP3
- Ethernet interface for OTT & IP; home networking ready
- Latest silicon providing advanced performance & features
- Connectivity: HDMI 1.3, Ethernet 10/100, USB 2.0
- Ultra-low power operation for European energy efficiency requirements

#### Product options:

Android™ 2.3 operating system, Powerline, & Wi-Fi 802.11n

Webkit based browser, Adobe® Flash Player® 10.1, OpenGL ES 2.0

### Hybrid HDX-400 (IP plus DVB-C/S/T options and DVR Ready)

A flexible, set-top box that can be customised for both pure IP and hybrid applications. The perfect solution for operators who wish to increase ARPU by delivering complementary, broadband delivered services over IP.

HbbTV

- Pause, record & rewind live TV via simple USB hard disk drive upgrade
- Latest silicon providing advanced performance & features
- Connectivity: HDMI 1.3, Ethernet 10/100, USB 2.0
- Ultra-low power operation for European energy efficiency requirements

#### Product options:

Android™ 2.3 operating system, Powerline, & Wi-Fi 802.11n

Webkit based browser, Adobe® Flash Player® 10.1, OpenGL ES 2.0

## Product Portfolio Broadband IP & Hybrid

HbbTV

### HDX-600R (IP plus DVB-C/S/T options with internal 1TB HDD)

A fully-featured, digital video recorder that combines the efficiency of hybrid IP reception with the flexibility of fully integrated personal video recording. The unit enables the delivery of a wide range of content, apps and services directly to the TV.

#### Highlights

- Supports MPEG-2, MPEG-4/H.264 AVC, WM-9/VC-1 AVC VP6, AAC, MP3
- Ethernet interface for hybrid, OTT & IP; home networking & HbbTV® ready
- Pause, record & rewind live TV with integrated hard disk drive of up to 1TB
- Latest silicon providing advanced performance & features
- Connectivity: HDMI 1.3, Ethernet 10/100, USB 2.0
- Ultra-low power operation for European energy efficiency requirements

#### Product options:

Android™ 2.3 operating system, Powerline, & Wi-Fi 802.11n

Webkit based browser, Adobe® Flash Player® 10.1, OpenGL ES 2.0

#### TV Anywhere: Multi Screen & Whole Home DVR

Multi device, multi screen viewing inside or outside the home is fully supported through our award winning TV Anywhere software solutions. TV Anywhere ensures that operators can embrace opportunities to increase ARPU and reduce churn by enabling content to be delivered securely to devices inside or outside the home.

By using the leading home networking and multi screen software standards and protocols, we can extend your services securely to a variety of devices, ensuring that your content is no longer constrained to the main TV in the home. Ask about our SlingLoaded® technology, developed to provide your customers with the ultimate in convenience, enabling them to watch their content on their favourite mobile devices.
