

## Product Portfolio Satellite & Terrestrial

### Hybrid HDS/T-400 Series

An advanced and fully DVB-S/S2 or DVB-T/T2 compliant set-top box. The perfect hybrid solution for broadcasters who wish to deliver complementary apps and services over IP, or for broadband and telco operators who wish to launch new entertainment services over existing networks.

#### Highlights

- Supports HD & SD reception, MPEG-2 & MPEG-4/H.264 AVC
- Latest silicon providing advanced performance & features
- Pause, record & rewind live TV via simple USB hard disk drive upgrade
- Ethernet interface supports hybrid, OTT & IP; home networking ready
- Ultra-low power operation for European energy efficiency requirements

#### Product Configurations & options:

HDS/T-420 – optional 2 x front ends of same type (satellite or terrestrial)

HDS-430 – optional 2 x hybrid front ends (satellite and terrestrial)

### Hybrid HDS/T-600RS Series

A state-of-the-art and fully DVB-S/S2 or DVB-T/T2 compliant digital video recorder. Designed with ease-of-use in mind, this product puts consumers in complete control of their digital entertainment experience, and enables operators to deliver complementary apps and services over IP.

#### Highlights

- Supports HD & SD reception, MPEG-2 & MPEG-4/H.264 AVC
- Latest silicon providing advanced performance & features
- Pause, record & rewind live TV with integrated hard disk drive of up to 1TB
- Integrated HbbTV® capability provides access to connected TV apps & services
- Award winning user interface optimised for hybrid & OTT content delivery
- Ethernet interface supports hybrid, OTT & IP; home networking ready
- Ultra-low power operation for European energy efficiency requirements

go beyond the box.

## Product Portfolio Satellite & Terrestrial

### TV Anywhere: Multi Screen & Whole Home DVR

Multi device, multi screen viewing inside or outside the home is fully supported through our award winning TV Anywhere software solutions. TV Anywhere ensures that operators can embrace opportunities to increase ARPU and reduce chum by enabling content to be delivered securely to devices inside or outside the home.

By using the leading home networking and multi screen software standards and protocols, we can extend your services securely to a variety of devices, ensuring that your content is no longer constrained to the main TV in the home. Ask about our SlingLoaded® technology, developed to provide your customers with the ultimate in convenience, enabling them to watch their content on their favourite mobile devices.
